

SPIRIT 2 DELUXE MERCEDES

Booking Code: 2BTSM Capacity: 2 adults

DRIVING

Pax Capacity: 2 Adults

Seating Configuration: Seatbelts for two in the front driving cab.

Radio/CD player: Radio/CD player, speakers front and rear cabs.

Cigarette Lighter: 12V, which are suitable to charge up video camera batteries.

Air Bags: Two air bags for two front seats.

Fuel: Diesel only; 68 litre tank/15 gallon.

Fuel Consumption: Approximately 14 litres per 100 km. This may vary, subject to use of air-conditioning, temperature and terrain.

Engine Specifications: 2.2 litre, turbo diesel.

Transmission: 5 Speed Manual.

Power Equipment: Power steering, power assisted brakes.

Tyres: Tyre pressure should be checked regularly.

The recommended pressure is 55 psi.

Spare Tyre: The spare tyre is located under rear of the vehicle. External access only.

Tools: The tool kit is located under the passenger foot area.

LIVING

Sleeping Configuration: One double bed 1.80m x 1.74m or 2 single beds 1.82m x 0.63m.

Fridge Freezer: The fridge operates on 12V battery continually. Fridge capacity 60 litre.

Gas Cooker: 2 ring cooker with griller ignited by match.

Gas Bottle: 2 x 2.25kg bottle. The gas bottle is located in the sliding door. The bottle has an 'ON/OFF' tap on it. Please ensure it is in 'OFF' position when not in use and when driving.

Microwave: The microwave operates from 240V only, so the vehicle must be plugged into mains power at a campground.

Bathroom Facilities: Hot and cold pressurised water in shower cubicle.

Toilet: Located in cubicle with shower. Flush toilet waste goes into cassette holding tank, which is accessed, from exterior compartment door. Toilet is full of chemicals on pick-up of vehicle, with a small complimentary supply. Toilet cassette holding tank must be flushed out and empty on drop-off.

Water Heater: Water heater works on gas and is operated by a switch. Water will be heated after approximately 15 minutes.

Fresh Water Tank: Capacity is 85 litre/19 gallon. The filler cap is located on the passenger side of the vehicle marked

'WATER' and the filler hose is in the wardrobe.

Grey Water Tank: Holding tank for grey waste water generated from the shower and kitchen sink. Disposable at all campgrounds and dump sites. Holds 80 litres/17 gallons grey water, and should be empty on drop-off. Grey water hose is in the driver's side exterior compartment.

Lighting: Interior lights operate off both 12V batteries and 240V mains supply.

Air-conditioning/Heating: Air-conditioning operates in the drivers cab only. The Rear cabin heating operates on 240V when plugged in at a camping ground only. Heating also in the driver's cab.

Power Supply: 240V mains and 12V battery. The 240V mains power operates when the exterior power cable is plugged in at a campground. There are two 12V batteries, one for starting the engine and the other for domestic 12V system. This system operates the water pump, lights and fridge. Batteries are recharged by engine alternator.

Storage: Ample cupboard space, storage under seats at rear of vehicle and hanging wardrobe.

Skylights: One in the rear of the living area. Ensure this is closed when driving.

Flooring: Easy to care for linoleum.

Internal Access: Internal access between the driver's cabin and living area.

Exterior Access: Back door, with exterior doorstep.
