

SPIRIT 6 MERCEDES

Booking Code: 6BM
Capacity: 6 adults,

DRIVING

Pax Capacity: 6 Adults

Seating Configuration: Seatbelts for two in the driving cab and seatbelts for four in the living area.

Baby/Booster Seat Fitting: 2 seats can be fitted on rear seats facing forward. Baby/Booster seats have to be pre-booked, otherwise cannot be guaranteed. Please advise age and weight of child on booking.

Radio/CD: Speakers in driving cab and living area.

Cigarette Lighter: 12V which is suitable to charge up video camera batteries.

Fuel: Diesel only 68 litre tank/15 gallon.

Fuel Consumption: Approximately 15 litres per 100km. This may vary subject to the use of air-conditioning, temperature and terrain.

Engine Specifications: 2.2 litre turbo diesel.

Transmission: Automatic/6 Speed manual.

Power Equipment: Power steering, and power assisted brakes.

Tyres: Tyre pressure should be checked regularly. The recommended pressures are 65psi for the front wheels and 65psi for the rear tyres.

Spare Tyre: The spare tyre is located under the rear of the vehicle. External access only.

Tools: The tool kit is located under the passenger foot area.

LIVING

Sleeping Configuration: one double bed in roof canopy 2.10 x 1.25m, one at rear of cabin 2.10 x 1.20m and one behind driver's cab 1.80 x 1.05m.

Fridge Freezer: The fridge operates on 12V whilst driving and on 240V mains when plugged in at a campground. Fridge capacity 60 litres.

Gas Cooker: 2 ring cooker with griller, ignited by match.

Gas Bottle: A 9 kg gas bottle. The gas bottle is located in the exterior compartment on the drivers side of the vehicle. Bottle has an 'ON/OFF' tap on it. Please ensure it is in 'OFF' position when not in use and when driving.

Microwave: The microwave operates from 240V only, so the vehicle must be plugged into mains power at a campground.

Bathroom Facilities: Hot and cold pressurised water shower cubicle with separate hand basin and amenity cabinet.

Toilet: Located in cubicle with shower. Flush toilet waste goes into cassette holding tank which is accessed from exterior compartment door. Toilet is full of chemicals on pick-up of vehicle with a small complimentary supply. Toilet cassette holding tank must be flushed out and empty on drop-off.

Water Heater: Water heater works on gas and is operated by a switch. Water will be heated after approximately 15 minutes.

Fresh Water Tank: Capacity is 85 litre/19 gallon. The filler

cap is located on the passenger side of the vehicle and marked "WATER" and the filler hose is in the wardrobe.

Grey Water Tank: Holding tank for grey waste water generated from the shower and kitchen sink. Disposable at all camping grounds and dump sites. Holds 85 litre/ 19 gallon grey water. Grey water hose is in the driver's side exterior compartment.

Lighting: Interior lights operate both off 12V battery and 240V mains supply.

Air-conditioning/Heating: Operates in driver's cab when engine is running. The rear cabin air-conditioning/heating operates on 240V when plugged in at campground only.

Power Supply: 240V mains and 12V battery. The 240V mains power operates when the exterior power cable is plugged in at a campground. There are two 12V batteries, one for starting the engine, and the other for domestic 12V system. This system operates the water pump and fridge. Batteries are recharged by engine alternator.

Storage: Ample overhead cupboard storage, space under seats at rear of vehicle and along wall and hanging wardrobe.

Skylights: Two in the roof of living area. Ensure these are closed when driving.

Fly Screens: Placed on all windows in the living area of vehicle. Flooring: Easy to care for linoleum.

Internal Access: Internal access between driver's cab and living area.

Exterior Access: Side door with pull out doorstep. Ensure this is pushed in when driving.
